

SOMERS SEPTA MEETING

Special Education Parent Teacher Association Presents

Auditory Processing Disorders in School Age Children

Presented by Dr. Christine Russo-Mayer

Auditory processing is 'what we do with what we hear'. An auditory processing disorder is the inability to attend to, recognize, discriminate, or understand auditory information you 'hear'. When there is a breakdown in any of these auditory processing functions, it will result in the reduced ability for your child to learn through hearing.

In this informative presentation, parents will learn:

- What auditory processing disorders are and how they are diagnosed
- How auditory processing disorders are similar and different from other disorders
- Which treatments, including therapy and technology, are successful in remediating auditory processing disorders

All are welcome! If you are interested in attending, please register at rsvpforsepta@gmail.com.

Thursday, November 8, 2018

7:30 PM

Somers Middle School Library

About Our Speaker: Christine Russo-Mayer, Au.D., CCC/A is a NYS licensed Audiologist, fellow of the American Academy of Audiology and holds her Certificate of Clinical Competence (CCC/A) from the American Speech-Language-Hearing Association (ASHA). She is the founder of CRM Audiology, a private practice in White Plains, NY. Dr. Russo-Mayer specializes in the assessment and treatment of Auditory Processing disorders. She works closely with school personnel, therapists and families to develop appropriate intervention plans. Additionally, she works as an Educational Audiologist providing direct and indirect services and educational seminars to local Westchester, Putnam, Rockland and Connecticut school districts for hearing loss, auditory processing, FM Technology and other assistive technologies needed to bridge the gap for students with auditory deficits.

*Please enter SMS through the Auditorium entrance and follow the signs to the library upstairs. For those requiring an alternative to stairs, please send an email to the address below.
