

SHS Schedule Highlights

Day 10 – “Safety Day”
9-17-19

As many of you know, we ran emergency evacuation drills (aka “fire drills”) during almost every period of the day today. Unbeknownst to the students and staff, we also decided to run one during the latter part of the Community Lunch as we know this is a concern for many. We are happy to report that we were able to clear the entire building in under 5 minutes, which is right in line with all of our other drills. We had students back into classes and attendance taken in another 5 minutes, meaning the entire drill from start to finish took just about 10 minutes.

Our students and staff are to be commended for helping us successfully complete all our drills today in a timely and orderly fashion.

Remember to contact us at schedulefeedbackSHS@somersschools.org. This is much more productive than using social media to voice concerns. We will continue sharing our responses through this format whenever new issues or questions come up.
