

# SHS Schedule Highlights

---

Day 8  
9-13-19

*Well, we made it through our first cycle of the new school year and, by almost every measure, things seem to be doing extremely well. Our students are adjusting nicely to the new schedule and any overcrowding that existed the first day of school has dissipated as students have found places in the school to go. We would like to commend our Food Services Staff, Monitors, and all other staff for their support in helping make the transition smoothly. We would also like to thank our amazing students for keeping a positive attitude, cleaning up after themselves, and demonstrating responsibility and respect.*

*As the school year unfolds, please continue to be in touch if there are any questions or concerns that arise. Remember to contact us at [schedulefeedbackSHS@somersschools.org](mailto:schedulefeedbackSHS@somersschools.org). We will continue sharing our responses through this format. This is much more productive than using social media to voice concerns.*

*The SHS Administration*
