

CURRICULUM GUIDES AND COURSE OUTLINES

The Board of Education encourages the development of curriculum guides and course outlines at all educational levels. These materials shall be revised annually and recommendations made by the Superintendent of Schools for revision and modification as necessary. The curriculum shall be designed to show the development sequence of content and skills.

State Education Department syllabi shall be used for all courses when, in the considered judgment of the professional staff, the state syllabi are the best available course outlines.

It is a professional responsibility to plan in advance for the instructional program offered to students. For this purpose, plan books should be used.

Adoption date: November 22, 1993
